Touch type

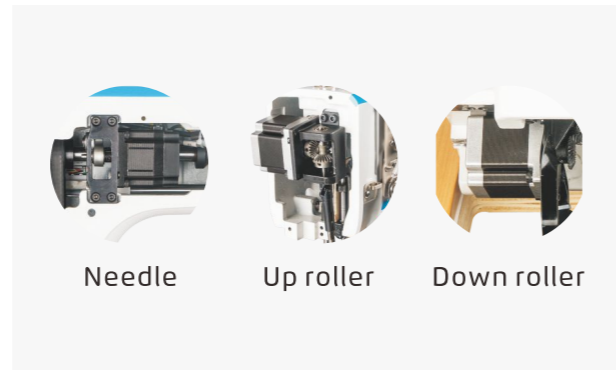

Button type

Which is the perfect choice for varieties high level leather shoes, sports shoes, suit cases & bags, gloves, leather products, accessories like clothes & hats etc.

**1 Silent Reverse Sewing, Lighter And Faster**

Stepper motor controlled reverse sewing structure can achieve silent reverse sewing, and have a lighter and faster speed working experience

**2 Stepper Motor Drive, Accurate Needle Stitch**

Up & down rollers and needle are all driven by an independent stepping motor to control the feeding and stitch length, so as to realize the accurate sewing stitches

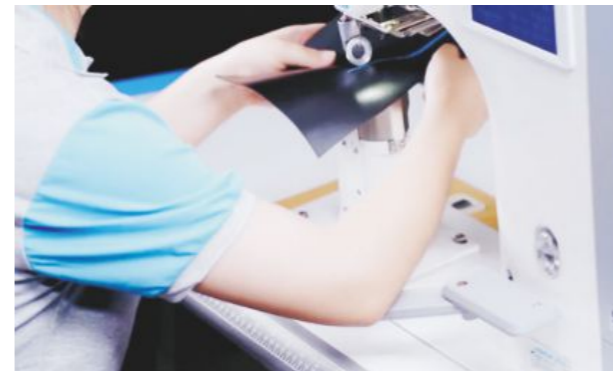

**3 Rotary Type Pressure Adjustment, Easy To Adjust**

Rotary type pressure adjustment screw is available to achieve simple, direct & precise adjustment

**4 Different Stitch Length, Free Switching**

Solve the problem that the stitch length becomes smaller when corner sewing, and realize the perfect overlap of stitches

**5 New Reverse Wrench, Operate Easily**

The reverse wrench adopts double-layer design, and the lower layer can rotate freely. When sewing can be controlled by the arm without finger pressing

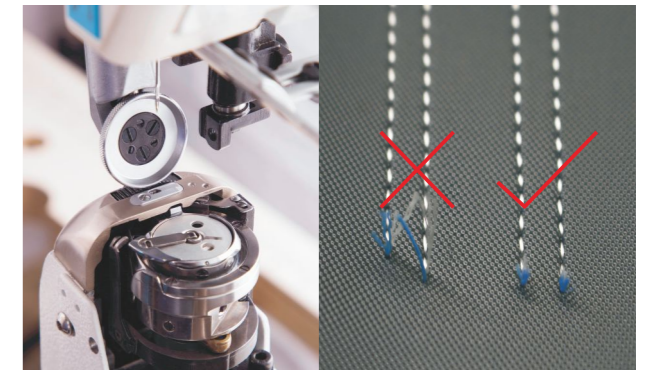

**6 Touch Operation Panel (alternative)**

5.0 inches big touch panel makes you easy to operate and understand. It can freely switch sewing mode between free sewing, overlap sewing, fixed needle sewing and programmable sewing

**7 Button Operation Panel (alternative)**

The panel has been optimized design, the interface is simple and generous, integrated voice navigation key, one-key recovery

**8 Short Thread Remaining Lock Function (optional)**

The innovative design of the short thread mechanism reaches 3mm, Super value-added functions like short thread, bobbin thread detection & IoT function are also optional

**Specification**
